

SATELLITE INSTALLATION FORM

A satellite installation form should be submitted prior to the installation of any satellite dish for your unit. To insure that damage is not caused to the property, we suggest that the satellite dish not be permanently attached to any part of the building. This includes the deck, siding and roof area. You are permitted to install a post in the ground for the attachment of the satellite dish when necessary as long as it does not impede the maintenance of the lawn. Please be aware that the owner will be responsible for any damage caused to the building from the installation of the satellite dish. If you agree to these terms please complete this form and return it to Rentz Management, Inc. P. O. Box 1027, Covington, KY 41012.
